

# Healthcare IT Security and Compliance Datasheet

## Innovative Solutions for Demanding Requirements

Healthcare enterprises must control operational costs, upgrade and manage information systems, and enhance the productivity of employees while adhering to increased compliance requirements. Nowhere is this “perfect storm” of challenges more evident than in healthcare IT security, which must deliver greater efficiencies while managing unprecedented risks:

- **Compliance requirements are escalating rapidly**
- **Healthcare security breaches are increasingly costly**
- **Third parties have become direct security risks**
- **Mobile devices represent a major new line of security risk**

SurePassID enables healthcare enterprises to address all of these risks, while simultaneously enhancing productivity, reducing costs, and leveraging existing IT infrastructures. SurePassID’s on-demand solution offers secure single sign-on, identity and access management, directory integration, automated provisioning and deprovisioning, strong multi-factor authentication, support for legacy on-premises authentication servers, and customizable deployment options.

---

## Innovation Example: SurePassID OneCard

**SurePassID OneCard** is the world’s first **all-in-one converged security credential**. OneCard enables healthcare enterprises to leverage a single, cloud-enabled strong security access card to:

- **Reduce costs** by combining logical, physical, and network access with printed ID badges
- **Secure the enterprise** with a single convenient credential that employees love
- **Deliver compliance** with regulatory requirements and best-in-class security

**Secure App Access**

**Secure Network Login and Access**

**Secure Pharma Box Access**

**Secure Door and Gate Access**

With OneCard and SurePassID’s on-demand solution, healthcare enterprises have unprecedented leverage to meet their demanding requirements and **achieve compliance with HIPAA/HITECH, EHR Meaningful Use, and Business Associate Agreements.**

## Innovative Solutions for Demanding Requirements

### For Staff

#### Secure, Convenient Access

- Enjoy secure access to all authorized apps, devices and premises
- Use “Bring Your Own Device” (BYOD)
- Benefit from strong authentication choices

### For Administrators

#### Increase Security and Integration

- Leverage new cloud-based solutions and tools
- Automate key processes
- Use granular access controls, logging, and auditing
- Securely embrace “Bring Your Own Device” (BYOD)

### For Executives

#### Achieve Compliance, Reduce Costs

- Meet compliance and corporate governance requirements
- Reduce costs and increase productivity
- Gain visibility into key processes and metrics across the healthcare enterprise

## Specifications

<b>Deployment Mode</b>	Cloud, On-Premises, Authentication Services VM
<b>Maximum Number of Users</b>	50,000 per installation
<b>Directory Integration/Synchronization</b>	<ul style="list-style-type: none"> <li>• Microsoft Active Directory</li> <li>• OpenLDAP</li> <li>• SurePassID as a directory</li> </ul>
<b>Application Integration</b>	<ul style="list-style-type: none"> <li>• Web Services (Axis2, WCF, asmx)</li> <li>• Java Apps</li> <li>• javascript/jquery</li> <li>• PHP</li> <li>• .NET</li> </ul>
<b>VPN Integration</b>	RADIUS
<b>Federated Identity/SSO</b>	<ul style="list-style-type: none"> <li>• SAML 2.0</li> <li>• ADFS 2.0</li> </ul>
<b>System Management Integration</b>	Windows Event Log
<b>Audit Logs</b>	<ul style="list-style-type: none"> <li>• SurePassID</li> <li>• Syslog</li> </ul>
<b>Encryption</b>	AES 128-512, PBE AES 128-512

## About SurePassID

SurePassID is a provider of next-generation identity and access management solutions for the cloud. SurePassID seamlessly integrates with cloud services to enable secure access to any application or device, by any authorized user, at any time. SurePassID’s on-demand solution offers secure single sign-on, identity and access management, directory integration, automated provisioning and deprovisioning, strong multi-factor authentication, support for legacy on-premises authentication servers, and customizable deployment options. SurePassID offers its solution direct and via a global network of resellers and integrators. For more information visit [www.surepassid.com](http://www.surepassid.com).
